

City of Hartford

Plan of Conservation & Development Update

Environmentally Sensitive Areas

Legend

-  Natural Diversity Database Listed Species
-  Tree Cover
-  Wetland Soils
-  Steeply Sloped Soils*
-  100-Year Flood Zone
-  500-Year Flood Zone
-  Watercourse Focus Areas (100' Buffer)
-  Existing Open Space

Source:
 Parcel Base Map: City of Hartford Planning Department.
 Natural Diversity Database (NDDB): Connecticut Department of Environmental Protection Map and Geographic Information Center.
 Soils: USDA, Natural Resource Conservation Service (NRCS) and the Connecticut Department of Environmental Protection Environmental and Geographic Information Center 1962 - 1995.
 Floodplains: Q-3 Flood Data as Derived from Flood Insurance Rate Maps (FIRM) Federal Emergency Management Agency, 1996.
 *Indicates soils with a minimum slope of greater than 15%.
 Tree Cover: Metropolitan District Commission (MDC) derived from aerial photograph interpretation.
This map was developed for use as a planning document. Delineations may not be exact.
